

7. (Twice Amended) The liner of claim 6, where said foam is a polyurethane foam.

13. (Amended) A multi-layer liner for lining concrete structures comprising:
a first barrier layer;
a surfacer layer disposed on said first barrier layer, said surfacer layer being a polyurea
foam; and
a second barrier layer disposed on said surfacer layer.

Applicant respectfully requests Examiner to please add the following claims.

18. The liner of claim 3, where said surfacer layer is composed of an epoxy.

19. The liner of claim 3, where said barrier layer has a cure rate of less than 60 seconds.

20. The liner of claim 3, where said barrier layer is less than 80 mils in thickness.

21. The liner of claim 13, where said first barrier layer and said second barrier layer are composed of the same material.

22. The liner of claim 13, where said first barrier layer and said second barrier layer are composed of a polyurea and isocyanate blend.

23. The liner of claim 13, where first barrier layer and second barrier layer are less than 80 mils in thickness.

24. The liner of claim 13, where said first barrier layer and said second barrier layer have cure rates of less than 60 seconds.
